Data Week Leipzig

1 - 5 June, 2026

Call for Participation

LSWT 2026

14th Leipzig Semantic Web Day
https://2026.dataweek.de/

Dear colleagues,

The **14th Leipzig Semantic Web Da**y (#LSWT2026) will once again be held in conjunction with the **Data Week Leipzig** on **June 3, 2026**, taking place in the heart of Leipzig. Since 2009, LSWT has provided scientists, businesses, and organizations with a platform to exchange ideas on topics related to semantic technologies.As in previous years, the latest developments and trends in semantic technologies and data will be presented.

The focus topics for this year include:

• Current challenges in the application of Large Language Models

• LLM and Knowledge Graph integration

• Semantic technologies and AI for industry and science

• New data products for industrial automation

• Cybersecurity and Knowledge Graphs

• Secure enterprise knowledge management

• Knowledge Graph use cases and sustainability

• FAIR data and data catalogs

• Semantic Data Fabric for real-world use cases

• Networked Society

These topics will be presented in lectures by experts from both industry and academia. If you are interested in participating, we invite you to present your current work in a 15-minute talk. Presentations will be held in English. We particularly welcome contributions from women in the field of Data Science.

Please submit your **presentation ideas by January 31, 2026**, to **lswt@eccenca.com**.

If you have any further questions, feel free to contact us.

We look forward to meeting you in Leipzig.

Best regards,

LSWT Organizing Team
